Dear Clients,

Rest assured that all the above choices are only of the usual high quality you have always come to expect from TEX MEX with the majority of them lifted from our main menu. Kindly realize that Delivery Times are beyond our control. We only prepare the food & don't actually deliver. Yes we make every effort to keep waiting times down but we are sure that you understand we are currently operating on a skeleton staff basis whilst delivered food is never as good as it would be straight from our kitchen to your table. In some cases we suggest reheating for best satisfaction.

Allergens & Cealic / Gluton unfortunately at these times with all due respect we cannot be liable for any illness in relation to this. If you believe it's not good for your particular diet it would be better if you were not to order to avoid undesired situations. www.texmexmalta.com
